

Winter 1982

The Linguistics Circle of Victoria is pleased to present the second volume of *Working Papers* on current linguistic research in the community. The Circle, under the sponsorship of the Department of Linguistics, includes among its members interested scholars from other departments at the University of Victoria, and other institutions in the area. The *Working Papers of the Linguistics Circle* is published semi-annually, normally one issue shortly after the end of the Fall term and another at the end of Spring. Publication of this volume was made possible by funding provided by the Linguistics Department.

The reader is advised that the articles appearing in the *Working Papers* vary in the degree to which they represent the authors' final views on the matters under discussion. With this in mind, comments and suggestions on ideas set forth in these papers would be welcomed.

While the first two numbers of *Working Papers* were distributed free of charge, it is our intention to have all copies of volume 2 sent on an exchange basis with other institutions, or to have subscriptions paid for all copies mailed. Those not on an established exchange system with us at present will find an invoice enclosed. If you do not wish to continue receiving copies, merely write CANCELLED across the invoice and return it to us.

We hope that the response to volume 2 will be as encouraging as the response to volume 1. We would also like to acknowledge the patient work of Ms. Gisèle Clément who managed to type and organize this issue in spite of everything.

The Editors

A. Copeland  
N. Galliaford  
T. Hukari  
H.J. Warkentyne
